SUMMARY

Passionate AI/ML engineer with a strong background in deep learning, computer vision, and natural language processing. Skilled in Python, TensorFlow, PyTorch, and various ML libraries. Excellent problem-solving, research, and collaboration abilities. Seeking a challenging role to develop cutting-edge AI solutions.

TECHNICAL SKILLS

Programming Languages: Python, MySQL,

Machine Learning: Regression, Classification, Feature Engineering

Deep Learning Frameworks: TensorFlow, PyTorch, CNN, LSTM

Libraries & Tools: NumPy, Pandas, Scikit-learn, OpenCV, Git, FastAPI

PROJECTS

AI Career Recommendation System (AI/ML Project)

Feb 2026 – May 2026
Python, Fast API, ML, MySQL

- Developed an AI-based system to recommend career paths based on user skills
- Generated personalized learning roadmaps for users based on selected career domains
- Implemented Machine Learning models for prediction and recommendation

AI Knowledge Assistant (AI/ML Project)

Python, RAG, NLP

- Developed an AI-powered assistant for answering user queries using Retrieval-Augmented Generation
- Enforced document retrieval and context-aware response generation in Python

Jarvis AI Assistant (AI/ML Project)

Python, NLP, Automation

- Expanded an AI-based virtual assistant for voice command and task automation
- Executed speech recognition and natural language processing for user interaction
- Automated tasks such as web search, application control, and information retrieval

EXPERIENCE

AI/ML Intern

Technorizen Software Solution

Sep 2025 – Present
Indore, MP

- Worked on 7+ AI/ML projects involving NLP and recommendation systems with improved prediction accuracy
- Improved and tested ML models using Python, Scikit-learn, and TensorFlow
- Built AI-based applications including chatbot and roadmap recommendation systems

EDUCATION

Chameli Devi Group of Institutions

B tech in Computer Science and Information Technology – CGPA: 7.0/10.0
